This article titled "Nucleation and growth rates of lactose as affected by ultrasound in aqueous solutions" and published in Volume 93, Issue 6, pages 595 - 604 has been retracted at the request of Curtin University resulting from an independent research misconduct inquiry conducted under the Australian Code for the Responsible Conduct of Research. Research misconduct was not found, however, the inquiry found that the paper was approved for final publication without the consent of all authors and recommended that the University request that the paper be retracted.

The online version of the original article can be found under http://dx.doi.org/10.1007/s13594-012-0106-1.
