Erratum

October 30, 2017

The formula for the pessimistic Jaccard ($J_P$) is erroneous. In Equation (5.7) it is given as

$$J_P(q_A, q_B) = \frac{|E_{1,1}|}{|E_{1,0}| + |E_{0,1}| + |E_{1,1}| + |E_{0,2}| + |E_{2,0}| + |E_{2,2}|}.$$  

The correct formula is

$$J_P(q_A, q_B) = \frac{|E_{1,1}|}{|E_{1,0}| + |E_{0,1}| + |E_{1,1}| + |E_{1,2}| + |E_{0,2}| + |E_{0,0}| + |E_{2,2}|}.$$
