HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L’archive ouverte pluridisciplinaire HAL, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d’enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.
CORRIGENDUM
Theoretical predictions for the elliptical instability in a two-vortex flow

By Stéphane LE DIZÈS and Florent LAPORTE

(Received ??)

As pointed out by Pantxika Otheguy, a few misprints are present in formulas of section 6. In expressions (6.1a) and (6.2a), $b^2/a_1^2$ under the square root should read $b^4/a_1^4$. Similarly, in expressions (6.1b) and (6.2b), $b^2/a_2^2$ under the square root should read $b^4/a_2^4$.

These misprints do not affect the results which were obtained with the correct expressions.
