Figure 4

![Graph showing the comparison of Sol-gel immobilized Lipase with (R)-2-aminohexane, (S)-2-aminohexane, and 1-aminohexane at different concentrations.](Image)

- Sol-gel immobilized Lipase + (R)-2-aminohexane
- Sol-gel immobilized Lipase + (S)-2-aminohexane
- Sol-gel immobilized Lipase + 1-aminohexane

The graph depicts the E values at different concentrations (0, 1, 1000) for each condition.
