Semi-classical correspondence and exact results : the case of the spectra of homogeneous Schrödinger operators

A. VOROS

(*J. Physique-Lett.* **43** (1982) L-1 - L-4)

Equations (14) to (17) were printed in an ambiguous form. They should read :

$$\cotg \pi\mu \cdot \sin 2\pi n\mu \cdot \zeta^P(n) - \cos 2\pi n\mu \cdot \zeta(n), \quad (14)$$

and so on.
